

# COSYSMO 3.0: Workshop Results

Jim Alstad USC Center for Systems  
and Software Engineering

Annual Research Review  
USC  
April 4, 2017

Jim Alstad 310/344-0894 [jalstad@usc.edu](mailto:jalstad@usc.edu)

# Workshop Agenda

Made available by  
Julie & support person

- Participant introductions
- Presentation of the Expert-Based Model
- ~~• Data Collection Form~~
- ~~• Cost Estimating spreadsheet~~
- ~~• Data Management and Security Procedures~~

Made unavailable by  
OnStream Media

## Workshop Results (1/2)

- **Started with about 8 people in room plus 3 online (Bob Epps, Brad Clark, Dan Liggett)**
  - Ended with 4 in room (Barry Boehm, Marilee Wheaton, Winsor Brown, me) and 3 online
- **Presentation of model**
  - Slide on “DFR will be covered below” needs to be clarified
  - 2-way handling of Process Capability needs to be noted
  - Cost driver impact slide needs to be brought up to date
  - Few other comments

# Workshop Results (2/2)

- **Data Collection Form**
  - **Marilee: on System Interfaces, we should consider adding “SYSML Activity diagrams” to the Text Definition as an option for defining system interfaces**
  - **Interoperability rating tables need to be reviewed; meaning seems hard to understand, especially on “Internal Interoperability”**
  - **Occasional minor comments**
  - **From COCOMO III Workshop: Want to coordinate Risk/Opportunity Resolution with COCOMO III RESL**
